WHAT WE DELIVER

Programme and Project Management

End to end leadership of complex technology programmes across oil and gas, utilities and the public sector, including planning, budget control and supplier management.

Applications and Digital Infrastructure

Application implementation, document management systems, engineering workflows and digital twins for global energy and utilities clients.

Strategic IT Consultancy

Senior advice on IT strategy, technology alignment and digital transformation, engaging directly with C-level and board stakeholders.

Governance, Risk and Compliance

Programme governance, risk management and regulatory compliance, with clear accountability at every stage. GDPR accredited.

OUR APPROACH

01 · INITIATE

Define

Objectives, scope, stakeholders and governance agreed from day one.

02 · PLAN

Plan

A realistic schedule, budget, resource and risk plan.

03 · DELIVER

Control

Hands on leadership, clear reporting and controlled change.

04 · CLOSE

Hand over

A managed transition into operations and lessons learned.

INTERNATIONAL EXPERIENCE

Project delivery across four continents

- ✓ **Europe** · UK, Ireland, Norway, Italy, Netherlands
- ✓ **Africa** · Gabon, Nigeria, Senegal
- ✓ **Far East** · China, India, Australia, New Zealand, Malaysia, Thailand, Singapore, Pacific Islands
- ✓ **Middle East** · Oman, Dubai

PROGRAMME LEAD

Brian Lynas

DIRECTOR · PROGRAMME LEAD

Senior IT and project management professional with over 30 years of international experience across the energy sector. PMP certified, having delivered complex multi-million pound programmes across Europe, Africa, the Middle East and the Far East.

Have a programme that *needs to land*?

Tell us about your programme or project and we will discuss how Acqua can help deliver it.
